ABOUT ME

I am a BSIT student with a growing passion for frontend development, UI/UX and graphic design. I have a strong background in creating visually appealing designs and user-friendly web interfaces. I specialize in responsive web design, attention to detail, and clean, modern layouts. I enjoy turning creative ideas into meaningful digital experiences and am always eager to learn new tools, trends and technologies in the frontend development field.

PROFESSIONAL PROFILE

A motivated and detail-oriented Frontend Developer with a strong foundation in HTML, CSS, JavaScript and responsive web design. I specialize in building modern, user-friendly and visually appealing web interfaces, with a focus on clean code, smooth user experiences and cross-device compatibility. My background in BSIT and experience in graphic design helps me bridge creativity with functionality, allowing me to convert visual concepts into well-structured and responsive web applications. I am eager to grow, learn and contribute to dynamic teams in the tech industry.
